

Brief:

Make it a coalition of the willing.

Need good ideas/thoughts and suggestions

Socialise how it works and next steps:

UKRI selection panel – they will have a say

Treasure will have a say

Needs to be owned and placed within AH

Context/scene setting

3-5 Qs to structure conversation:

X disciplinary approaches?

AH contribution and gaps?

Research/policy interface and translation mechanisms

Policy needs

- Root – ground this in the legal/ethical/cultural frameworks: what are the broad AH research areas and where are the gaps
- Recovery – again this is AH focussed in the areas of mental health and healing; role of victims in recovery
- Reduction – social/cultural norms or practices and their contexts (think Ebola here); as well as a discussion regarding collaborators and partners (who/how)

***AHRC supports research into the content, procedures, theory, philosophy and history of the law. This includes studies of legal systems and legislation in all periods of history and in all parts of the world.***

# Choreography

Aim and objectives – what we want to get out of the day:

- What is the problem or opportunity we are trying to address
- What are the objectives and key deliverables
- What the benefits of funding are – why this and not something else

Context/scene setting

- Need good ideas/thoughts and suggestions
- Socialise how it works and next steps:
  - UKRI selection panel – they will have a say
  - Treasure will have a say
  - Needs to be owned and placed within AH
- 3-5 Qs to structure conversation:
  - X disciplinary approaches?
  - AH contribution and gaps?
  - Research/policy interface and translation mechanisms
  - Policy needs

Suggested topic areas / prompts for discussion:

- Root –
  - what are the broad AH research areas and where are the gaps, particularly with regard to the rule of law and human rights as a root cause of slavery, trafficking, etc.
  - What do we know about the link between this and modern slavery? What are the gaps?
  - Are there missing methodologies
  - Would we benefit from x-disciplinary collaboration that isn't currently happening?
- Reduction –
  - [how] does cultural relativism affect practical changes/ what do we [not] know about this area of research
  - should we export a Western perspective and if not – what do we [need to] understand to increase respect for and adherence to human rights' values...?
  - who are the partners we should be working with/where will the outputs be most useful?
  - What are the translational challenges? What's the international perspective and the role of international actors?
- Recovery –
  - What research is taking place and/or where are the gaps with regard to the mental health and healing of victims
  - What do we know about the role of victims in recovery
  - [What] are the gaps in the policy space between understanding and action?
