Innovate UK adopt a policy whereby funding decisions are final and not subject to appeal. The assessment process that Innovate UK employ uses a panel of independent experts to ensure that all decisions are objective and technically informed.

As Innovate UK operates a rigorous approach to assessment, discussions are not entered into relating to scientific or technical decisions concerning an application for a grant or innovation loan. Complaints are investigated to assess adherence to established procedures and ensure decision-making has not been impacted.

There is a complaint process available if there are any issues relating to the conduct of Innovate UK, which includes any issues surrounding grant awards. Details of what will and will not be accepted as a complaint can be

found in the [Innovate UK complaints procedure](#)<sup>1</sup>, along with further details on [decisions for grant or innovation loan applications](#)<sup>2</sup>.

If you have any queries regarding our response or you are unhappy with the outcome of your request and wish to seek an internal review of the decision, please contact:
