The impression I got from [REDACTED] was that the RCNDE separate list was a thing of the past and that it should be integrated into the main list. [REDACTED] should be able to confirm whether this is the case.

Thanks,

Hi All

Attached is a spreadsheet with all proposals which are either awaiting usability checks, decisions or have 3 reviewers.

Please could you action before c.o.p 29th May as speakers need assigning by 31 May.

If all 24 on this list go to the meeting that will make a batch total of 51 (27 already assigned), this will mean that the panel can be done on one day.

Thanks
