---

Hi All

Please can I remind you albeit a bit early that the June meeting closes on 29<sup>th</sup> May.

There are currently:

10 ready for the meeting

29 awaiting usability checks, please could you do these asap to avoid late/tabled papers

28 with 2 reviewers and just enough time to get a speedy third before the cut off

Plus

32 which have one review or less, so some chasing may push these through.

Attached is my spreadsheet for the June meeting for your information.

Any queries, please let me know

Thanks

[REDACTED]
