Freedom of Information request: FOI2020/00260

Thank you for your Freedom of Information request received on the 20 August in which you requested the following:

Your request:

RE: Innovate UK Smart Grants: January 2020 (Deadline 28 May 2020). (Applicants were notified of their outcomes on 07 August 2020).

I would be very grateful if you could please provide the below information on the above funding competition for both:

*Stream 1 projects (6-18 months duration, eligible project costs between £25-£500k), and;
Stream 2 projects (19-36 months duration, total eligible project costs between £25K-£2M).*

The information I would like to request is as follows:

- 1. The total number of applications submitted and the number of those that were assessed (i.e. deemed eligible for funding)*
- 2. The overall number of applications awarded funding and a breakdown of how many of these were first-time applications and how many were resubmissions*
- 3. The total number of applications within each innovation area and the number of those that were successful in each area*
- 4. The average grant request and project size of the applications successfully awarded funding*
- 5. The average score of successful applications*
- 6. The percentages of successful applications that were Industrial Research and Experimental Development*
- 7. The number of successful Industrial Research and Experimental Development projects that were; (i) Single applicant/partner, (ii) 2 partner, (iii) 3+ partners*
- 8. The total funding allocated in this competition round.*

Finally, please can you advise on the budget / how much funding will be allocated for the upcoming Smart competition that will open on 28th August 2020.

Our response:

I can confirm UK Research and Innovation (UKRI) hold the information relevant to your request. Please see the information below.

Please note that:

Stream 1: Projects 18 months or less in duration, with total project cost of £500k or less

Stream 2: Projects either over 18 months in duration and/or £500k project costs

1. *The total number of applications submitted and the number of those that were assessed (i.e. deemed eligible for funding)*

2728 applications were submitted and 2440 were assessed. Ineligible applications are not split into streams, therefore only the total number of eligible applications received is available per stream:

Stream	Number of eligible applications submitted
Stream 1	2089
Stream 2	351
Total	2440

2. *The overall number of applications awarded funding and a breakdown of how many of these were first-time applications and how many were resubmissions*

Stream	Number of successful applications
Stream 1	129
Stream 2	23
Total	152

We estimate that the cost of determining how many of these applications were first-time applications and how many were resubmissions would exceed the appropriate statutory limit as specified within Section 12 of the FOIA which for UKRI is set at £450. This represents the estimated cost of 18 hours of staff resource on locating, retrieving and extracting the information.

To explain further, in order to gather this information we would be required to go into each individual application to confirm the applicant's response. Given the volume of applications, our reasonable time estimate to complete this task would be over 20 hours. Consequently, UKRI is not obliged under Section 12 of the FOIA to process this section of your request further.

3. *The total number of applications within each innovation area and the number of those that were successful in each area.*
