In order to improve the transparency of the peer review process, applicants and Research Organisations will receive Panel introducer's comments, and when available, any further consolidated comments from the Panel Meeting. Applicants will also receive a set of anonymised copies of reviewers comments (if as

yet unseen). Although these comments may not cover all of the views expressed by the Panel, I hope that you will find them helpful in providing some background information on points raised by other reviewers in assessing this proposal. I should emphasise that the Council takes no responsibility for the views expressed in the enclosed reviewers' comments and does not necessarily endorse them. I am afraid that the ESRC is not able to enter into discussions arising from these comments and would be grateful if you could treat them as strictly confidential.
