<sup>1</sup>All scores are the written assessment scores and are given as percentages

Projects considered under strand 1 (over £500k) had a two-stage assessment. The first was a written assessment and projects were then selected for interview on both the assessor score and the portfolio review criteria. All applications selected for interview from strand 1 scored over the quality threshold of 70%, and the Innovation Lead selected the highest scoring projects to give a balanced portfolio of different innovation areas. The written scores were then superseded by the interview panel scores, which were used to determine funded projects based on a top-down approach.

Projects in strand 2 (under £500k) for this round were selected based on a top-down approach until the competition budget was reached. We reserve the right to undertake a Portfolio Approach for future rounds in strand 2. More information on the portfolio approach can be found in the [Innovate UK General Guidance](#).<sup>1</sup>

We are also providing the documents for the scoring criteria '*FOI2023-00393 Interview Panel guidance for assessors*' and the interview assessment criteria '*FOI2023-00393 BMC R1 Assessor Guidance V1*'.
