1. Background and methodology

Background and methodology

The UKRI People Survey was made available to all colleagues across UKRI via the following methods:

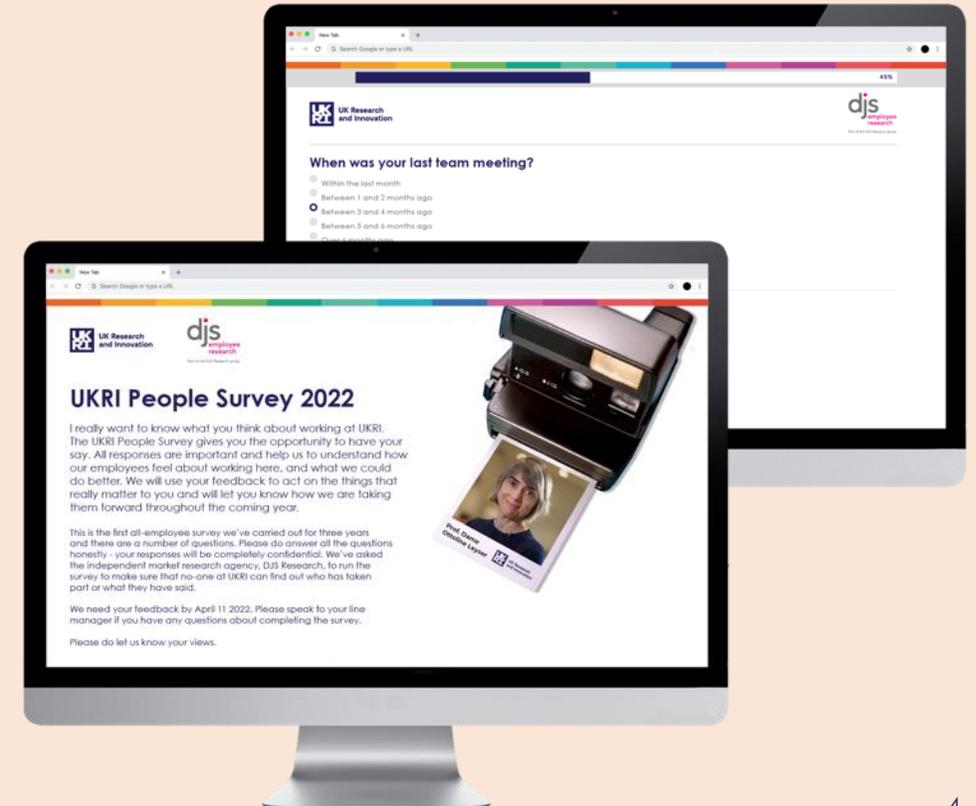

- Online survey emailed to work accounts
- Paper copies available for colleagues unable to complete the survey online
- The option of completing the survey over the telephone with one of the DJS Research project team

The survey was live between **7** and **29 April 2022**.

This report provides a summary of the results for **UKRI Corporate Hub**, with comparisons to the UKRI average.

The survey questions were designed in close consultation with colleagues across UKRI through focus groups and a user-testing pilot. The survey explored topics such as:

- Engagement
- Line management and senior leadership
- Learning and development
- Performance management
- Organisational objectives and purpose
- Team working
- Pay and benefits
- Resources and workload
- Inclusion and fair treatment, discrimination, bullying and harassment
- Wellbeing

A guide to this report

Rounding

Results are presented as whole numbers for ease of reading and interpretation. Rounding is performed at the last stage of calculation for maximum accuracy. Therefore, where results are presented as % (percent) positive, % (percent) neutral or % (percent) negative, there may be instances where the results do not total 100 percent.

% (percent) positive

Where results are shown as positive percentages (% positive), these are calculated by adding together positive responses (e.g. “strongly agree + agree”) and dividing by the number of respondents who answered the question.

Confidentiality

It is DJS Research’s practice not to present the results of groups to the extent where the confidentiality of individuals may be compromised. Results for teams or departments where **less than 10 responses** have been received will not be presented in the reports. However, their data will still contribute to the scores for their council/area and the organisation overall.

Council/area labelling

Some questions within the survey asked colleagues to consider their council or area specifically and not UKRI as a whole. Throughout this report, where we show the term **[council/area]**, this indicates where a question was asked of a person’s council or area and not UKRI as a whole.
