19 December 2023

Dear [REDACTED],

**Freedom of Information request: FOI2023/00916**

Thank you for your Freedom of Information request received on the 20 November in which you requested the following:

**Your request:**

*I would like to make a request for the following information on the demographics of the assessors (specifically the age and gender identity of the assessors) who scored in the Innovate UK Smart grant competitions, The Women in Innovation awards specifically in the three years from October 2020 to November 2023.*

*I would also like to request the demographics of the assessors who scored the last two Innovation in Professional & Financial Services competitions as well as the demographics of the applicants and the demographics of the successful applications specifically to these two competitions (closing date 27th September 2023 and closing date 9th November 2022).*

**Our response**

I can confirm that UK Research and Innovation (UKRI) hold information relevant to your request. Please see the information below.

The data below provides information on the demographics of assessors (age and gender identity) across the competitions identified in your request (Smart grant competitions, The women in innovation awards and two Innovation in Professional and Financial Services (IPFS) competitions). It also includes the demographics of applicants (age and gender identity) for the two rounds of the Innovation in Professional and Financial Services competitions.

Please note for anonymity purposes counts are rounded to the nearest 5, with counts of 1 - 4 suppressed and replaced with '-'. Percentages are rounded to the nearest 1%.

Some information has been withheld from disclosure under section 40(2) of the Freedom of Information Act 2000 (FOIA), the exemption relating to personal information. Data relating to less than five individuals has not been provided, indicated by '-'. We consider that to provide these details, individuals in this group could be identifiable. This would undermine expectations of confidentiality in such circumstances and would be unfair to those concerned.

We consider that to disclose information relating to small numbers of individuals would contravene the first Data Protection Principle as defined under Section 86 of the Data Protection Act 2018 and Article 5 of UK General Data Protection Regulation (UK GDPR) of lawfulness, fairness and transparency.

Section 40(2) is an absolute exemption and does not require a public interest test.

**In relation to the applicant data:**

'All Applications', this includes all applicants who submitted an application, including: conditionally awarded, funded, ineligible and unsuccessful applications.

Please note that the below data relates to the lead applicant on the application form, and is not indicative of a project team as a whole.

Award rate is the proportion of awarded compared to applied, for each individual demographic.
