[REDACTED]
- 4.3. [REDACTED] noted a small number of offensive/abusive Tweets during the large submission period. It was agreed that abusive/threatening/offensive behaviour should not be tolerated. It was agreed that there was a need for the Funder community to consider how it responds to the negative/offensive Tweets that appear on Twitter during the Submission Periods. It was noted that funders are often constrained by corporate communications policy that can affect their ability to counter/engage. If funders find themselves unable to respond due to internal policies, one alternative could be to add positive messages to Twitter in order to drown out the negative messages.

ACTION: The Comms Sub-group to explore ways to respond with consistent messaging in this area and also to get positive messages out during Submission Periods
