Dear [Redacted],

Freedom of Information request: FOI2023/00991

Thank you for your Freedom of Information request received on the 13 December in which you requested the following:

Your request:

Following the results distributed for applicants, I would like to request the following information please:

- How many applications were submitted for June 2023 competition?
- How many applications were successful?
- Which industries/technology types were the most successful in this round?
- What the average amount of grant awarded was for successful projects?
- The ranking of geographical regions to receive grants

Our response

I can confirm that UK Research and Innovation (UKRI) holds some information relevant to your request. Please see the information below.

Table 1: Questions 1, 2 and 4

Question	Total
1. The number of applications submitted.	1629
2. The number of successful applications.	63
4. Average grant fund value per project. ¹	£532,736.32

¹Average value of funding sought for 'successful' applications at the assessment stage. Please note grants are not final until applicants have completed the project set up phase of their grant award.

Table 2: Question 3 - The count of successful projects by industry/technology type.

Please note, Innovate UK asks applicants to specify an 'Innovation Area' in their application.
