

Full Proposals 2025 – Summary of proposals

Overview: 6 Full Project proposals were submitted for consideration for Wave 4 of the Infrastructure Fund. Please find short summaries of each below.

Name of Full Activity	Capability	Short description	Proposer	Duration – Prelim Activity (yrs)	Duration – Full project (yrs)	Cost – Prelim Activity (£m)	Cost – Full project (£m)
IMAS-UK (Imaging Across Scales-UK)	Combination of new capability and changes to existing capability	A globally unique, distributed bioimaging platform mapping biology across scales, delivering AI-enabled data integration and systems-level understanding of health and disease.	MRC (lead) & BBSRC	NA			
Blue Horizon	Combination of new capability and changes to existing capability	Supercharging the UK tidal energy industry through the expansion of the European Marine Energy Centre’s R&D infrastructure in Orkney.	Innovate UK	NA			
PhenomUK	Combination of new capability and changes to existing capability	A national distributed infrastructure for plant and crop phenotyping, connecting facilities and communities to accelerate UK agri-tech research and innovation.	BBSRC	NA			

Preliminary Activity 2025 – Summary of proposals

Overview: 1 preliminary activity is submitted for consideration alongside the Wave 4 Full Proposal projects for the infrastructure fund. This preliminary project has been brought to the IAC now for assessment (next preliminary activity round is to be assessed in early 2026) due to a requirement by Government for an earlier decision to be made in relation to this project.
