# 1. Background and methodology

# Background and methodology

The UKRI People Survey was made available to all colleagues across UKRI via the following methods:

- Online survey emailed to work accounts
- The option of completing the survey over the telephone with one of the DJS Research project team

The survey was live between **22 April** and **17 May 2024**.

This report provides a summary of the results for **UKRI Corporate Hub**, with comparisons to the UKRI average.

The survey questions were designed in close consultation with colleagues across UKRI through focus groups and a user-testing pilot. The survey explored topics such as:

- Engagement
- Line management and senior leadership
- Learning and development
- Performance management
- Objectives and purpose
- Team working
- Pay and benefits
- Resources and workload
- Inclusion and fair treatment, discrimination, bullying and harassment
- Health, safety and wellbeing

# A guide to this report

## Rounding

Results are presented as whole numbers for ease of reading and interpretation. Rounding is performed at the last stage of calculation for maximum accuracy. Therefore, where results are presented as % (percent) positive, % (percent) neutral or % (percent) negative, there may be instances where the results do not total 100 percent.

## % (percent) positive

Where results are shown as positive percentages (% positive), these are calculated by adding together positive responses (e.g. "strongly agree + agree") and dividing by the number of respondents who answered the question.

## Confidentiality

It is DJS Research's practice not to present the results of groups to the extent where the confidentiality of individuals may be compromised. Results for teams or departments where **fewer than 10 responses** have been received will not be presented in the reports. However, their data will still contribute to the scores for their council/area and the organisation overall.

## Council/area labelling

Some questions within the survey asked colleagues to consider their council or area specifically and not UKRI as a whole. Throughout this report, where we show the term **[council/area]**, this indicates where a question was asked of a person's council or area and not UKRI as a whole.

## 2. Headline findings

# Average scores per survey theme (1)

Engagement with UKRI	Engagement with UKRI Corporate Hub	My work	Objectives and purpose	My manager
63 Difference to UKRI +5	55 Difference to UKRI -12	73 Difference to UKRI -2	59 Difference to UKRI -3	79 Difference to UKRI +1
Support for managers	My team	Learning and personal development	Pay and benefits	Resources and workload
75 Difference to UKRI +2	82 Difference to UKRI +2	56 Difference to UKRI -1	47 Difference to UKRI +1	67 Difference to UKRI 0

The scores shown above are calculated by applying a weighting to each response on the 5-point agreement scale. This approach means that a score of 100 is equivalent to all colleagues saying strongly agree to all questions in the section, while a score of 0 is equivalent to all colleagues saying strongly disagree to all questions.

## Average scores per survey theme (2)

Inclusion and fair treatment	Health, safety and wellbeing	Senior leadership within UKRI	Senior leadership within UKRI Corporate Hub
<b>74</b> Difference to UKRI 0	<b>69</b> Difference to UKRI +3	<b>56</b> Difference to UKRI +1	<b>56</b> Difference to UKRI -4
Managing change	Organisational culture	Experienced discrimination	Experienced bullying or harassment
<b>54</b> Difference to UKRI 0	<b>73</b> Difference to UKRI 0	<b>5%</b> Difference to UKRI -1%	<b>8%</b> Difference to UKRI +1%

Please note, the figures for 'experienced discrimination' and 'experienced bullying or harassment' reflect the proportion of colleagues who have experienced these. As such, whereas a higher figure is positive for other theme scores, it's negative for these two.

The scores shown above are calculated by applying a weighting to each response on the 5-point agreement scale. This approach means that a score of 100 is equivalent to all colleagues saying strongly agree to all questions in the section, while a score of 0 is equivalent to all colleagues saying strongly disagree to all questions.
